1. This Office action is in response to the amendment filed 9/22/04.

2. The following is an examiner's statement of reasons for allowance: applicants' amendments have overcome the remaining formalities in the present claims. From the reference cited by applicants and made of record herein, but more specifically from the references cited within the Owiny reference, it would have been clear to the routineer in the art how to make the present mono-salicylaldiminato compounds, thus overcoming the 35 USC 112, first paragraph enablement rejection. However, none of that prior art fairly discloses or teaches that such compounds are catalysts for olefin polymerization. It is not until after the priority date of the present application that the chemical literature discloses or teaches that such compounds, normally the bis-salicylaldiminato compounds, may have utility as catalysts. Hence, none of the prior art of record is applicable in a prior art rejection.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to J. Pasterczyk whose telephone number is 571-272-1375. The examiner can normally be reached on M-F from 9 to 5:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mark Bell, can be reached at 571-272-1362. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
